| 1 | isn't it? | |
| 2 | A | Which pressure were you referring to? |
| 3 | Q | Well, 142/100 |
| 4 | A | is elevated. |
| 5 | Q | And 152/92? |
| 6 | A | Is not considered significant. |
| 7 | Q | It is elevated, though? |
| 8 | A | Most physicians wouldn't treat a blood pressure of |
| 9 | 152/ | 92, so it's elevated. |
| 10 | Q | I don't want to argue about it. It is elevated, but |
| 11 | not | significant? |
| 12 | A | Correct. |
| 13 | Q | At that October 21 visit, did you learn from any source |
| 14 | that | Mrs. Brown had a left-sided hearing loss? |
| 15 | A | No, I did not. |
| 16 | Q | You next saw her on November 10? |
| 17 | A | That's correct. |
| 18 | Q | What was the reason for that visit? |
| 19 | A | That was to recheck a blood pressure. |
| 20 | Q | What were the notes that you wrote there, Nos. 1, 2, 3 ? |
| 2 1 | A | "Blood pressure is good. Repeated blood pressure is |
| 22 | norm | al. Sleeping better. Nausea is only occasional. |
| 23 | Impi | ression, chronic fatigue syndrome. Continue present |

| 2 | A It was in a phone call on the 6th of November. |
| 3 | ${f Q}$ What was your prescription or recommendation at that |
| 4 | time? |
| 5 | A She was given Compazine for the nausea. |
| 6 | Q And at the visit on November 10 does it say to continue |
| 7 | present therapy? |
| 8 | A Yes. |
| 9 | Q What was the telephone call; what did that relate to on |
| 10 | the 27th of November, 1992? |
| 11 | A She started having problems with her difficulty |
| 12 | sleeping again, since she was off the Sinequan. |
| 13 | Sinequan and doxepin are the same drug. One is the |
| 14 | generic name and one is a trade name. The problem is it has |
| 15 | about a three-week onset of effect, and also has a period |
| 16 | where it takes awhile to get out of the system. |
| 17 | Since we stopped the Sinequan approximately a month |
| 1% | ago, her depression was recurring and causing her |
| 19 | sleeplessness to come back, so we restarted the doxepin. |
| 20 | Q Then you saw her on December 14 after that? |
| 21 | A That's correct. She was complaining of a hangover |
| 22 | effect from the doxepin, that when she would get up in the |
| 23 | morning she would feel groggy. |
| 24 | Q Did she have any complaint of unsteadiness of gait or |

| 1 | A | No. |
| 2 | Q | Hearing difficulties in the left ear? |
| 3 | A | No. |
| 4 | Q | Did you learn any of those things at that time from |
| 5 | anyc | one else about her? |
| 6 | A | No, I did not. |
| 7 | Q | Was there any examination at that time on the 12th of |
| 8 | Dece | ember? |
| 9 | A | Yes. |
| 10 | Q | Okay. Tell me about it. |
| 11 | A | I observed her walking in and out of the room. The |
| 12 | weig | ght was recorded, and she had increased weight. And that |
| 13 | was weight was a concern because her initial complaint | |
| 14 | when I saw her in July was that she had lost a lot of weight | |
| 15 | and I wanted to make certain that that was not a continued | |

| 1 | A When I first saw her, she was very, very anxious, and |
| 2 | she was also very slight, a very thin lady; and that is a |
| 3 | very common problem. |
| 4 | Q What did you make of it later on in December when you |
| 5 | found it once again? |
| 6 | A I thought it was a continuation. It had not changed |
| 7 | from the time I had seen her in July. |
| 8 | ${\tt Q}$ So, on these other visits it was the same |
| 9 | hyperreflexia? |
| 10 | A Idon't |

| 20 | Q Is the prescription, then, for Sinequan? |
| 21 | A Right. |
| 22 | Q It's a what is that? |
