- 2 earlier, right, sir?
- 3 A. That's correct, yeah
- 4 O. None of this income listed on this report 5
 - from your accountant covers any money you
 - received from insurance companies, covers any
- 7 money that you received from adjusting companies,
- 8 covers any money received from Bureau of Workers'
- 9 Compensation, Crawford & Company, Grange
- Insurance, State Farm, Allstate, Marriott claims, 10
- 11 Pittsburgh and Conneaut Company, Careworks
- Company, Westfield Insurance Company, Navisource, 12
- 13 none of those are listed in this stream of income
- given to me by your accountant; is that correct? 14
- A I believe you're correct 15
- 16 O. All right. So from law firms in 2000,
- according to this Plaintiffs Exhibit, A, you 17
- 18 made \$33,156 doing these independent medical
- 19 exam, right?
 - 20 A 1 trust you
 - 21 Q. And certainly, you made a lot more than that
 - from all these other ones that you did them for, 22
 - right?
 - A That list goes back five years, right'
 - 25 Q. Yeah. Well, it lists it year by year.

 - 2000 --
 - A No, no That list you've got there'
 - 3 Q. Yeah. 4
 - A No That list of lawyers was not all 2000,
 - 5 was it?
 - Q. No. No, it goes back about two years,
 - total.
 - 8 A Okay
 - 9 O. You've got 33,156 in 2000, 27,693 in '99.
 - 24,873 in '98, 20,166 in '97 and in '96, \$10,423. 10
 - It seems as your income from law firms for doing 11
 - 12 independent medical examinations has gone up each
 - 13 year. That would be a fair statement, wouldn't 14 it?
 - 15 A That's the way it sounds, yes
 - 16 Q. Okay, sir. Did you want to look at it
 - 17 again?
 - 18 A No
 - 19 Q. Okay. Do you have any idea, since obviously
 - 20 your accountant keeps those records, what the

- 1 Q. You billed Mr. Sah in this case, initially
- 2 there was a bill for \$870. Remember that?
- 3 Plaintiffs Exhibit 3, that was marked from your
- 4 deposition.
- 5 A. Right.
- 6 Q. Okay. What -- and that was for what, sir?
- 7 A. For the IME, for the radiographs and the
- 8 IME, review of medical documents, review of
- 9 outside radiographs, IME, preparation of medical
- 10 report and then the other was for the radiograph.
- 11 Q. Okay. When you do one of these independent
- 12 medical examinations, Dr. Smith, isn't it
- 13 important for you to know everything you can
- 14 about what treatment has been administered to the
- 15 person you're going to examine?
- 16 A. That would be nice.
- 17 Q. I mean, you'd like to have all of his
- 18 medical records that have anything to do with the
- 19 accident, wouldn't you, sir?
- 20 A. I would think so, yeah.
- 21 Q. Okay. Did you get all of them in this case?
- 22 A. I got what was sent to me.
- 23 Q. Did you get all of them, is my question. I
- 24 know that you got what was sent to you.
- 25 A. If there are other medical documents, I'm

- 1 what parts of Mr. Seelie's body were injured?
- 2 A. His history was fairly straightforward and
- 3 pretty thorough on that.
- 4 Q. Did he tell you how fast the car that hit
- 5 him was going?
- 6 A. Hedidnot.
- 7 Q. Did you ask him?
- 8 A. 1 don't believe so. It's difficult for, my
- 9 impression, someone who's not trained to do that
- 10 to estimate.
- 11 Q. Well, certainly one could conclude that if
- 12 somebody got hit from behind by another car at a
- 13 significant speed, they would be more likely to
- 14 be injured than if they were just tapped at four
- 15 or five miles an hour. You'd agree with that,
- 16 wouldn't you?
- 17 A. Right.
- 18 Q. But you never asked him about that did you,
- 19 the mechanics of the accident itself?
- 20 A. Yeah. He was hit from behind. He was
- 21 pushed into the car in front of him.
- 22 Q. You didn't ask him how fast the car behind
- 23 him was going, you didn't ask him what he did in
- 24 the car, whether he grabbed the steering wheel?
- 25 A. No. I don't ask him how fast they were

	62		64

	kind of thing.	2	you said, "That's correct." All right? And then

3	Q. Well, you didn't ask him, so you really		at line 21 I said, "Did you read this letter when

5	A. I really don't how I don't know how fast	5	Then I said, "Okay. And 1 presume you then stuck

8	Q. Do other lawyers send you the police report	8	A. Yeah.
9	when they send you the records to review?	9	Q. That's what you said at your deposition
10	A. Some do.	10	under oath when I took your deposition here in
11	Q. Okay. Is it helpful?	11	your office on
12	A. Sometimes. Sometimes it's confusing.	12	A. Right. But I
13	Q. Okay. And then one of the other things that	13	Q. On August can I finish, please?
14	was sent to you by Mr. Sah was a letter that was	14	A. Sure, sure.

20	Q. All right. And you saw that before the	20	Q. It's not necessary, Doctor. 111 just ask

22	A. That, I don't know.	22	A. No, I think it is necessary.
23	Q. Well	23	Q. Well

- A. I'm not sure what you're asking me now.
- 2 Q. Is the rest of that your opinion to a
- 3 reasonable medical certainty as to what injuries
 - he sustained?
- 5 A. Is the rest of that --
 - Q. The impression.
 - A. -- you mean the impression section?
 - Q. Yeah.
 - A. No. It's what he has now.
- 10 Q. Well --
- 11 A. Let me explain.
- 12 Q. Goahead.
- 13 A. Impression is what he has now and what
- 14 happened. Now he has pain in the sacroiliac
- 15 joint with occasioiial leg pain No evidence of
- 16 neurologic deficit on examination, and a pars
- 17 defect which was present on the x-rays and the
- 18 MRI before.
- 19 Q. Okay.
- 20~ A. So my impression is what the patient has and
- 21 what was related to the accident.
- 22 Q. So everything contained in your report in
- 23 the impression level was what you felt were the
- 24 injuries sustained by John --
- 25 A. No.

- Q. I'm asking you a question.
- A. Okay.
- Q. Wait until I ask the question.
- A. Okay.
- ⁵ Q. Everything contained in your report in the
- 6 impression level is what you felt were the
- 7 injuries sustained by John Seelie in the motor
- 8 vehicle accident of July 1,1999, correct?
- 9 A. No.
- 10 Q. All right. When I asked you that exact same
- 11 question when I took your deposition under oath
- 12 on August 8th, your answer was, "Within a
- 13 reasonable medical certainty, that's correct."
- 14 Do you want me to show you what page?
- 15 A. No. I believe --then that's a
- 16 misstatement.
- 17 Q. Well, let me stop you. Then you made a
- 18 misstatement when I took your deposition; is that19 right?

- 20 All right.
- 22 A. Sure.

- 23 Q. Well let me go on then. Okay?
- 24 A. No, no. Don't I get to exchange -- explain
- 25 my misstatement to the jury, or whoever?

 90 1 Q. Well, if Mr. Sah wants to get you on redirect? 3 A. Okay. 4 Q. On cross-examination 5 A. Okay. I understand. 6 Q. Okay? 7 A. No, you're right. 8 Q. You've been through this before, haven't 9 you? This isn't the first time you've had your 10 deposition taken, is it? 11 A. Like this no, once before, with you. 12 Q. Other than that? 13 A. That's correct. 14 Q. Okay. And then I said, "He didn't sustain 15 any herniated disk, right?" And you said I'm 16 going to read exactly what you said. "I don't 17 know for sure that the herniated disks came at 18 that time or before." That's what you said on 19 August 8th, wasn't it? 20 A. Do I get a 21 Q. Is that what you said on August 8th? 22 A. I don't know. I'd like to see where you're 23 reading from. 24 Q. Turn to page 68 just so there is no mistake. 25 A. Sixty-eight? 	92- 1 I read that accurately," and you said, "Yes, you 2 did." And I said, "Is that your opinion of the 3 injuries sustained by my client in the motor 4 vehicle accident?" And you said, "He suffered 5 low back pain. That is correct." And then I 6 said, "Is the rest of that your opinion to a 7 reasonable medical certainty as to what injuries 8 he sustained?" And you said, "Is the rest of 9 that impression?" And I said, "Yeah," and you 10 said, "Yes." 11 Then I said, "Okay. So everything contained 12 in your report in the impression level is what 13 you felt were the injuries sustained by John 14 Seelie in the motor vehicle accident of July 1st 15 of 1999, correct?" And you said, "Within a 16 reasonable medical certainty, that's correct." 17 And I said, "He didn't sustain any herniated 18 disk, right?" And you said, "I don't know for 19 sure that the herniated disks came at that time, 20 or before." Did I read all that accurately? 21 A. That's correct. 22 Q. Thank you. Then later on, you told me that 23 he couldn't have sustained herniated disks from 24 the accident because of some study that you were 25 aware of, right?
 91 Q. Actually, let's do it this way. Let's go to page 67. Are you with me? A. Uh-huh. Q. Go to line 6. I'm just going to read it as I asked you the question and you gave the answer when I took your deposition under oath here on August 8th. Okay? A. Yup. Q. All right. "Now, the first thing that Plaintiff's Exhibit 7 requests that you do in Mr. Sah's letter says, 'What injuries, if any, were sustained in the motor vehicle accident of 7/1/1999?' Did I read that correctly?" And you said "Yes." "Where in your medical report is that information contained, if anywhere?" Your answer was, "It says impression low back pain." I said, "So that's where that opinion's contained?" And you said, "Yes." And then I read, "Impression: Motor vehicle accident on or about 7/1/99 with low back pain, which at this point is mostly in the sacroiliac junctions, and occasional right leg pain with no evidence of neurological deficits whatsoever on examination, pars defect with grade one spondylolisthesis, L4-L5." And then I said, "Did 	 93 1 A Right 2 Q. But you couldn't locate the study, but a eventually you had the abstract from the study 4 sent to me by Mr. Sah. You didn't send it to me 5 yourself, you sent it to him so he could send it 6 to me, correct? 7 A Correct 8 Q. And that was a study that examined or did 9 imaging studies on 100 people of different ages, 10 some of whom were symptomatic for back problems 11 and some of whom were not, right? 12 A I believe so 13 Q. But did you ever read the whole study? 14 A No 15 Q. Because I've got the whole study? 16 A Okay 17 Q. Do you have the whole study? 18 A Idonot 19 Q. All you have is the abstract? 20 A That's right 21 Q. Wouldn't that be important, since that's one 22 of the bases for you opinion here this morning, 23 that you have the whole study? 24 A Not necessarily The abstract is a summary 25 of the study

 Q. Since Dr. Sterns's opinions were certainly different than yours, did you ever think to call him on the phone and ask him how he arrived at a different conclusion than you? A. No. Q. Who would be in a better position to do an evaluation of Mr. Seelie's injuries from this motor vehicle accident? Dr. Sterns, who's been treating him for a number of years, or you, who saw him last? A. Ibelieve Dr. Stems saw him twice. I'm not sure he saw him any more than that, and Q. Did you understand my question? A. I'm trying to answer it. Maybe I didn't. Q. Let me make it easier for you. Who would be in a better position to evaluate the injuries sustained by Mr. Seelie in the July 1, '99 automobile accident? Dr. Sterns or you? A. I'm not sure there is a right or wrong answer there. My impression is that Dr. Sterns saw him a couple times only, and hasn't seen him in over two years. I saw him in April, and that's a more recent examination. MR. HOUSEL: Off the record. That's a neurological indication, isn't it? A. Can be, can it not? A. Can be, yes. It is not. Q. It can also be an indication of a herniated disk pressing on a nerve root, can it not? A. No. Q. It can't be that? A. You tell me when I can speak and I'll speak. Q. You can speak. A. No, it's not a pretty simple question. A. No, it's not a pretty simple question. Q.
